

Ford Transit Chassis Cab and Cutaway Models

Adding capability, fuel economy and excellent driving dynamics, Transit sets the new standard for full-size commercial chassis cab and cutaway models up to a 10,360-pound GVWR, offering maximum adaptability and versatility for commercial customers. The uni-ladder frame is reinforced with 50,700-psi high-strength steel, while critical cab components contain boron for strength and weight savings.

Key: ■ Steel ■ High-strength steel ■ Boron high-strength steel ■ Upfit mounts
